

# Michigan Care Improvement Registry Participation in the Reporting to the Body Mass Index Growth Module

In accordance with Public Act 540 of the Public Acts of 1996, Amended 2006, Act 91, the Michigan Department of Community Health (MDCH) has established the Michigan Care Improvement Registry (MCIR) to record information regarding childhood immunizations administered by health care providers and other health related data. The information contained in the MCIR is subject to confidentiality and disclosure requirements. The information in the MCIR shall be used only for the purposes authorized in state statutes and rules.

### Purpose -- Body Mass Index (BMI) Growth Module in the MCIR

The MCIR will collect standard pediatric height and weight data that may be reported by health care providers that provide health care services to a child ages 0 to 18. The MCIR will enable these health care providers to assess the child's body mass index and provide appropriate treatment. A child's parent or guardian or an individual my object to the reporting of height and weight data by providing written notice in accordance with R 325.163a (2) listed on the reverse side of this form.

### Statement -- Reporting to the BMI Growth Module in the MCIR

*In accordance with Rule 325.163a:*

I OBJECT to the reporting to the BMI Growth Module in the MCIR and issue this written notification to the MDCH that height and weight data for myself or my child not be reported to the MCIR. I understand that by signing and submitting this form, no MCIR user will be able to record height and weight data for me or my child within the MCIR, nor will my or my child's height and weight history be available through the MCIR.

I RESCIND THE PREVIOUS OBJECTION to report and record height and weight data for myself or my child in the BMI Growth Module in the MCIR. I understand that by signing and submitting this form, the MCIR will resume recording reported height and weight data for myself or my child within the MCIR.

### **Child or Individual Information (this information is necessary to properly identify you or your child)**

Name _____		
Last	First	Middle
MCIR ID _____	Date of Birth _____	
	(MM/DD/YYYY)	

### **Parent/Guardian or Individual Contact Information**

Name _____		
Last	First	Middle
Relationship to Child _____	Phone Number (_____) _____	
Signature _____	Date _____	

Name of Submitter _____
-------------------------

*Completed forms must be sent to the MDCH – Cardiovascular Health, Nutrition and Physical Activity Section (visit [www.michigan.gov/cvh](http://www.michigan.gov/cvh) for contact information) for processing.*

## **Michigan Care Improvement Registry Law**

### **MCL 333.9227 Rules**

Sec. 9227. (1) The department shall promulgate rules to implement this part, including, but not limited to, rules governing all of the following:

- (a) Age periods for immunizations.
- (b) The minimum ages at which immunization may be commenced.
- (c) The minimum number of doses required during a specified time period.
- (d) Minimum levels of immunization for children in school.
- (e) Reporting under section 9206(3).
- (f) The acquisition, maintenance, and dissemination of information contained in the registry established under section 9207.

(2) The department shall promulgate rules to implement the expansion of the registry to include the reporting and recording of additional information such as lead screening performed on children.

### **Administrative Rule R 325.163a**

#### **Reportable information regarding height and weight.**

Rule 3a (1) A health care provider that provides health care services to a child ages birth to 18 may report to MCIR the child's height and weight measured during a patient encounter after obtaining the consent of the child's parent(s) and/or guardian(s). The health care provider must provide the child's parent(s) and/or guardian(s) with a written consent that explains that the reporting of the child's height and weight information is optional, and that the parent(s) and/or guardian(s) may opt-out of the reporting.

(2) A health care provider who receives written notification from an adult requesting that his or her (or his or her child's) data not be reported to the registry shall forward the request to the department. The department shall not add any information about the child's height and weight to that individual's or child's record after receipt of the request.

(3) For each report of height and weight, the department shall calculate and include in MCIR the BMI for the child. The department may make this information accessible to health care providers that provide health care services to a child ages birth to 18.

(4) To promote clinical quality and provider and patient education, the department shall identify evidence-based resource materials and reference information concerning BMI to be made available to health care providers. Provider oriented resource materials shall be consistent with clinical guidelines established by professional medical associations and quality improvement guidelines recognized by the department. Patient and family oriented resource materials shall be consistent with public education materials published by either federal public health agencies or the department. These materials are to be intended for informational purposes only and shall include a disclaimer that the department does not provide clinical guidance or assume responsibility for health care provided to a patient.

(5) The department may convene an expert advisory panel to review and advise the department on resource materials and reference information described in subsection (4) of this rule.
